ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

RANGE ROVER VELAR

The Range Rover Velar is a revolutionary member of the Range Rover family, sitting between the Range Rover Evoque and the Range Rover Sport. Taking glamour, modernity and elegance to an exceptional new level, it combines an emotionally charged DNA and unquestionable design pedigree.

Search 'Range Rover Velar' to see the vehicle in action.

Vehicle shown: 2020 Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment. Vehicles shown are from the Land Rover global range. Specifications, options and availability will vary between markets and should be verified with your nearest Land Rover Retailer.

THE RANGE ROVER THAT CHANGES EVERYTHING

“The Range Rover Velar interior is a calm sanctuary, created through elegant simplicity and a visually reductive approach, with design-enabled technologies like the Touch Pro Duo infotainment system*. All-LED lights and deployable flush door handles on the exterior complete a truly compelling design and, of course, it's a Land Rover with exceptional capability in a variety of conditions. Introducing the Range Rover Velar: the avant-garde Range Rover.”

Gerry McGovern
Land Rover Chief Design Officer

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. Features and their availability may differ by vehicle specification. For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your local Land Rover Retailer. **These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

¹When reduced section steel spare wheel or alloy spare wheel is fitted. ²Not available on P250 engines.

³With optional air suspension.

Please refer to the accompanying Technical Specification for full details on Driveline, Engine Performance and Fuel Economy.

Vehicle shown: Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment.

COMPELLING DESIGN

The design of the Range Rover Velar is revolutionary. Its elegant looks and exemplary variety of standard features – such as flush deployable door handles and integrated rear spoiler – are designed to improve aerodynamic efficiency, while the foil-stamped grille gives the vehicle's front profile an undeniable presence. Sleek LED headlights and rear lights are also standard. See page 8 for details.

INTELLIGENT VERSATILITY

To make your trip even more comfortable, the Range Rover Velar provides 38 inches head clearance and 37 inches knee clearance for occupants, along with exemplary cargo space of 34.4 cubic feet¹. Electronic Air Suspension² enables automatic access height for elegant entry and the powered gesture tailgate allows simple loading with hands-free access. See page 38 for details.

DISTINCTIVE INTERIOR AMBIANCE

The Range Rover Velar cabin minimizes wind and road noise through the use of aerodynamic undertrays and acoustically laminated front glazing. Rear passengers can benefit from optional reclining rear seats, optional Four-zone Climate Control and two optional 8" Rear Seat Entertainment screens. See page 11 for details.

DESIGN ENABLED TECHNOLOGIES

The standard Touch Pro Duo infotainment system, part of Land Rover InControl® technologies, makes life more connected and entertaining. The system seamlessly integrates two 10" high-definition Touchscreens to enable you to make a phone call on one screen while navigating on the other*. Touch Pro Duo is complemented with full-color Head-up Display, an optional state-of-the-art system** providing sharp graphics, and optional Interactive Driver Display with configurable touch steering wheel controls. See page 21 for details.

OUTSTANDING CRAFTSMANSHIP AND MATERIALS

Our interior specialist team has meticulously developed every component that you see and touch, to deliver a refined, tactile experience. Supple leathers or premium textile and suedecloth can be specified for seats, steering wheel and extensively throughout the cabin. See page 11 for details.

SPORTS COMMAND DRIVING POSITION

The Sports Command Driving Position helps deliver a more confident, engaged drive. See pages 11 and 34 for details.

CAPABILITY

Range Rover Velar has world-renowned Land Rover capability at its core. Standard features include All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD) and Torque Vectoring by Braking (TVBB) to deliver a connected drive**. Adding to driver assistance off-road, optional features include All Terrain Progress Control (ATPC), Terrain Response® 2** and an Active Rear Locking Differential. Impressive wading depth³ of up to 25.6 inches helps provide composure and sure-footed progress in challenging conditions¹. See pages 14-19 for details.

REFINED EFFICIENT POWER

A choice of V6 and 4-cylinder Ingenium engines deliver refined and responsive driving. The V6 P380 engine delivers 332 lb-ft of torque. See page 12 for details.

DESIGN

CELEBRATION OF EXTERIOR DESIGN

Sophisticated. Intelligent. Advanced. Refined power and effortless elegance combine with exquisite effect in this outstanding example of contemporary automotive design. The Range Rover Velar is beautifully balanced, with optimized proportions. Its proud Range Rover lineage is instantly recognizable, from the formal, powerful volumes of the front end, through a flowing, continuous waistline, culminating in a taut and elegantly tapered rear.

The sleek volumes of the lower body, with its flawlessly integrated deployable flush door handles, bear witness to our obsession with the finest detail. Optional 22" wheels enhance the vehicle's stunning proportions, further emphasizing the spectacular on-road presence of the Range Rover Velar. At the rear, the vehicle's design is distinguished by quad tail light signature elements within a full-width graphic incorporating the iconic Range Rover script, seamlessly harmonizing the vehicle's lines to stunning effect.

Search 'Range Rover Velar Design' for full details.

CELEBRATION OF INTERIOR DESIGN

The cabin of the Range Rover Velar exudes elegant simplicity. The familiar Range Rover interior design architecture, with its strong elegant horizontal lines, blends seamlessly with innovative features to give a feeling of calm, and enhance the driving experience.

Two seamlessly integrated 10" Touchscreens* and minimalist controls - fitted as standard - give easy control of the latest advanced technology. As the vehicle is started and comes to life, the revolutionary Touch Pro Duo technology reinforces the overall sense of luxury and innovation**. Everything has been designed and crafted to help you and your passengers arrive relaxed. The twin sliding armrests, which operate independently, help maximize your individual comfort.

Beautiful materials, including optional Windsor leather with a signature Diamond Cut pattern throughout the cabin, add a contemporary twist. Modern premium textiles, expertly constructed in collaboration with one of Europe's leading manufacturers of high-quality and design-led textiles, Kvadrat, are offered as an alternative to leather.

The elevated position of our renowned Sports Command Driving Position is designed to enable you to see further down the road and view your surroundings with greater clarity.

The option of Configurable Ambient Interior Lighting in a choice of ten colors creates the right mood. The sliding panoramic roof, standard on all models, floods the cabin with light, bringing the outside in and further enhancing the interior cabin.

Search 'Range Rover Velar Design' for full details.

Standard sliding panoramic roof

Windsor leather with Diamond Cut pattern

Twin sliding armrests

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

Interior shown: Range Rover Velar R-Dynamic HSE with Light Oyster/Ebony interior in Windsor leather and optional equipment.

PERFORMANCE AND CAPABILITY

ENGINES

From power and sheer driving pleasure to fuel economy and refinement, there is a range of engines available for Range Rover Velar. Each has been optimized for specific attributes to cater for all needs. All engines are equipped with Stop/Start technology and smart regenerative charging; this feature harvests kinetic energy from braking to charge the battery for improved economy, especially during urban driving. Ingenium technology underpins all of the 4-cylinder engines in the Range Rover Velar range. These low friction, all-aluminum engines have stiff cylinder blocks and twin balancer shafts to ensure inherently low levels of vibration, for smooth day-to-day performance.

8-SPEED AUTOMATIC TRANSMISSION

All engines in Range Rover Velar are coupled with an 8-speed Automatic Transmission. With eight closely spaced ratios, the transmission helps to ensure that you are always in the optimum gear, helping to improve fuel efficiency* and acceleration. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style. Controls include steering wheel-mounted gearshift paddles, enabling you to take control of gear changes manually.

REFINED PERFORMANCE

The drive of the Range Rover Velar is supremely confident, connected and effortlessly delivered thanks to a carefully engineered suite of technologies.

ALL WHEEL DRIVE WITH INTELLIGENT DRIVELINE DYNAMICS

All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD), fitted as standard, delivers both outstanding on-road performance and the full off-road capability expected of a Range Rover. Working together, AWD with IDD continually optimize the engine torque distribution to the front and rear wheels, and provides improved traction in a variety of road and weather conditions*. Uniquely developed for the Range Rover Velar, the durable transfer box uses an electro-mechanically activated multi-plate wet clutch to deliver smooth and precise distribution to the front and rear wheels. This ensures the constant optimization is imperceptible from the cabin and available engine torque is maximized to give efficient vehicle traction.

IDD determines the required distribution by continually monitoring the vehicle and its interaction with the road. Typically starting with a 50:50 distribution to ensure enhanced controlled stability from the first vehicle movement, the system has the full capability of 100 percent rear bias to 100 percent front bias should road conditions require it. Predictive, as well as reactive, the system helps prevent losing traction as well as working to regain it*.

LOW TRACTION CONDITIONS

On slippery surfaces, such as wet grass and snow, torque can be balanced between the front and rear wheels to improve traction. In extreme conditions where only the front wheels have traction, up to 100 percent of engine torque can be distributed to the front wheels for enhanced grip*.

HIGH TRACTION CONDITIONS

On smooth, dry surfaces, Range Rover Velar provides intelligent torque distribution to the rear wheels for the most efficient drive as well as delivering precise agility and handling*.

TORQUE VECTORING BY BRAKING

Torque Vectoring by Braking is designed to deliver controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels*.

- A** Understeer detected
- B** Braking force to inner wheels
- C** Torque to outside wheels maintained
- D** Line corrected

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Vehicle shown: Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment.

ADAPTIVE DYNAMICS

The optional Adaptive Dynamics system¹ delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. To do this, the system is designed to constantly analyze acceleration, steering, throttle and brake pedal activity. The electronically controlled dampers adjust to optimize the suspension settings and provide optimum balance between comfort, refinement and agility*.

CONFIGURABLE DYNAMICS

To enhance either refinement and comfort or the vehicle's performance, the optional Configurable Dynamics function allows you to configure the throttle mapping, gearbox shift points, steering settings and suspension to suit your driving needs.

Search 'Range Rover Velar Capability' for full details.

¹Requires Electronic Air Suspension on P340 and P380 engines. Not available on P250 engines.

CAPABILITY

The first vehicle to combine luxury and refinement with Land Rover-renowned capability, Range Rover continues to be leading-edge. Range Rover Velar offers new levels of style, while its unique Land Rover technologies and optimized geometry establish its off-road capability.

The Land Rover patented Hill Descent Control (HDC®) is a standard feature. It is designed to assist the driver with controlled descents of difficult slopes. It does so by helping maintain a constant speed and applying braking separately to each wheel. Hill Launch Assist, which also comes as standard, is designed to help prevent the vehicle from rolling backwards as it pulls away on an incline. The vehicle also utilizes Gradient Release Control (GRC), which is also standard, and is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake*.

ELECTRONIC AIR SUSPENSION¹

A sure-footed, composed drive is completed by the latest Electronic Air Suspension, which provides exceptional wheel articulation and poise. It changes the vehicle's height quickly, allowing cross-linking of the diagonal wheels to help keep all four wheels on the ground on most uneven surfaces. Added to which, it makes loading heavy objects into the trunk easier as you can alter the vehicle's height by +/- 2 inches to suit your needs. These functions can be operated via the 10" Touchscreen or button² in the cargo space area. The Speed Lowering System also uses the Electronic Air Suspension at cruising speeds by lowering the vehicle from normal ride-height when the speed reaches 65 mph**.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **Always follow local speed limits.

¹Only available with Adaptive Dynamics. Not available on P250 engines. ²Only available when optional towing equipment is selected. Standard on V6 engines. Not available on P250 engines.

Vehicle shown: Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment fitted.

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control (ATPC) is a state-of-the-art optional system that assists you in setting and maintaining a steady speed in challenging conditions such as slippery surfaces, including mud, wet grass, snow and dirt roads. Operating like a cruise control system, it functions between 2.2 mph and 19 mph, enabling you to maintain full concentration on steering and finding a path through obstacles*.

DYNAMIC HANDLING PACK

Land Rover has always been synonymous with off-road capability. Whether tackling mud, wet grass, gravel, sand or snow, our vehicles have a suite of technologies to help you deal with the trickiest terrains with confidence. The optional Dynamic Handling Pack features a truly comprehensive selection. All Terrain Progress Control, Terrain Response® 2, Adaptive Dynamics, Configurable Dynamics and Electronic Air Suspension¹ are all included*. No matter where you drive, composure is customary.

TERRAIN RESPONSE®

When you manually select Land Rover's unique standard Terrain Response system, it sets the vehicle up optimally to match the demands of the terrain, by adapting the responses of the vehicle's engine, gearbox, differentials and chassis systems. There are six Terrain Response settings: Comfort, Grass/Gravel/Snow, Mud and Ruts, Sand, ECO and Dynamic Mode*.

TERRAIN RESPONSE® 2¹

Terrain Response 2* is an option that takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and systematically selects the most suitable terrain setting*. This function works seamlessly through the Touch Pro Duo Control Panel (lower Touchscreen**).

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

¹Must call Adaptive Dynamics. ²Optional on R-Dynamic HSE only. Requires Electronic Air Suspension. ³Please reference page 14 for full explanation of All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD) and Torque Vectoring by Braking.

Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected.

SAFETY

ULTIMATE CAPABILITY

COMPOSURE

ACTIVE REAR LOCKING DIFFERENTIAL

The Active Rear Locking Differential^{*23} is designed to enhance traction in various weather conditions.

A typical open differential transfers equal torque to the driven wheels, meaning that if one wheel slips then torque transfer to the other wheel is also limited, which reduces traction. Whereas the Range Rover Velar All Wheel Drive (AWD) with Intelligent Driveline Dynamics (IDD)³ and Electronic Traction Control (ETC)³, both fitted as standard, go two steps further by distributing torque to both the front and the rear wheels, and by braking the wheels independently to improve traction respectively. The addition of the Active Rear Locking Differential delivers the ultimate combination to enhance traction through limiting slip across the rear wheels*.

A second multi-plate wet clutch between the rear wheels can lock almost instantly to provide full engine output torque to both wheels. This can be especially useful to deliver effortless capability in low-grip conditions such as wet grass or during wheel articulation off-road. It also provides enhanced traction when exiting a corner, as when the inside wheel becomes unloaded due to weight transfer, the Active Rear Locking Differential increases the torque to the outside wheel*.

Search 'Range Rover Velar Capability' for full details.

TECHNOLOGY

INFOTAINMENT

Unique to Jaguar Land Rover, the InControl infotainment system's Touch Pro Duo not only looks like no other, it performs like no other. Delivering a wealth of information and entertainment, it features intuitive and advanced integrated technologies to ensure everyone can make the most of their trip*.

Search 'Range Rover Velar Technology' for full details.

TOUCH PRO DUO

The standard 10" dual high-definition Touchscreens allow the user to view required information while simultaneously being able to interact with additional features, for increased flexibility and efficiency of use**. For instance, you can use the navigation system in the upper screen while playing media on the lower screen†. Direct access to cabin and seat temperature controls are also available via the new multi-function dynamic dials.

For a truly elegant and streamlined appearance, the steering wheel also has new hidden-until-lit, touch-sensitive switches as standard. One of these switches is programmable, so that it can be personalized to your preferences to accomplish a host of functions.

INTERACTIVE DRIVER DISPLAY¹

The Range Rover Velar ensures you're always entertained, informed and connected. The R-Dynamic HSE model features a 12.3" high-definition Interactive Driver Display that can receive and project a vast amount of driving information, entertainment and data including navigation, phone and media†. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin-sharp graphics. Features can be accessed on either the Interactive Driver Display or the Touch Pro Duo Touchscreens**.

HEAD-UP DISPLAY²

To reduce distraction or the need for you to take your eyes off the road, Head-up Display is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windshield*. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touch Pro Touchscreen and your phone. The feature can be turned on and off dependent on driver preference†.

REAR SEAT ENTERTAINMENT³

The optional Rear Seat Entertainment system provides two 8" screens built into the rear of the front headrests. It includes 'Trip Status', a Navigation Summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination. The system comes with two WhiteFire® digital wireless headphone sets and HDMI, Mobile High-Definition Link (MHL) and USB connections.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. †Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

¹Available within the optional Technology Pack. Standard on R-Dynamic HSE only. ²Image shown with Traffic Sign Recognition and Adaptive Speed Limiter. ³Available on R-Dynamic HSE only.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under license.

Remote App will need to be downloaded from the Apple/Play Store.

Interior shown: Range Rover Velar R-Dynamic HSE with Light Oyster/Ebony interior in Windsor leather with optional features.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music, and the Range Rover Velar has the option of four different audio systems to bring your music to life:

Search 'Range Rover Velar Technology' for full details.

MERIDIAN™ SOUND SYSTEM

Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 10 door-mounted speakers and a dual channel subwoofer. Standard on Range Rover Velar S and R-Dynamic S.

MERIDIAN SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of 16 front, side and rear speakers and a dual channel subwoofer – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the center and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger. Optional on Range Rover Velar S, R-Dynamic S and standard on Range Rover Velar R-Dynamic HSE.

MERIDIAN SIGNATURE SOUND SYSTEM

This delivers truly life-like reproduction, creating a profound, personal sound experience for every seat. World-first Trifield 3D technology takes surround sound to the next level, the Signature Sound System includes 22 speakers and a dual channel subwoofer. Incredibly authentic, the sense of cabin space is expanded to a 3D experience – rendering all the instruments, performers and venues of your favorite performances in true scale and location. Available on Range Rover Velar R-Dynamic HSE only.

SIRIUSXM® SATELLITE RADIO* AND HD RADIO™

The option of HD satellite radio technology offers improved sound quality, and a wide choice of stations and entertainment*.

*A 3-month trial subscription to the Sirius All Access pack is included with the vehicle, which gives you access to 150+ channels of premium programming. Plus you can stream SiriusXM on your computer, smartphone or tablet – it's included in your trial. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming are subject to change. SiriusXM satellite radio is not available in Alaska or Hawaii.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Land Rover’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor. Meridian’s audio technology input has helped ensure that Range Rover Velar is the most superb space within which to experience sound. Meridian Cabin Correction technology

was utilized to analyze cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, pitch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian’s Cabin Correction tailors the sound experience to the precise acoustics of Range Rover interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD™

Exclusive to Meridian, Trifield blends the center and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

TRIFIELD 3D

Building on Meridian’s proven Trifield surround sound technology - world-first in-car Trifield 3D truly brings musical performances to life. Through the addition of dedicated height channels, the sense of cabin space is expanded to a 3D experience, for a supreme sense of scale and definition to your music.

CONNECTIVITY

Land Rover InControl®* is a suite of standard features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. With a selection of apps, even when you're away from your vehicle, some of the InControl features stay with you, making sure the Land Rover experience is more enjoyable than ever. Apple CarPlay®** is a standard feature, which allows vehicle-optimized apps on your Apple® smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player. Similarly for Android™ smartphones, Android Auto™** is available as a standard feature.

Search 'Range Rover Velar Technology' for full details.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. **Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. The Apple CarPlay and Android Auto user interfaces are products of Apple or Google and their terms and privacy statements apply. The interfaces require compatible iPhone or Android smartphone and message and data usage rates apply. Apple CarPlay is a registered trademark of Apple Inc. Android and Android Auto are trademarks of Google Inc. Vehicle shown: Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment.

STANDARD FEATURES

VOICE RECOGNITION SYSTEM

Understands clear spoken instructions, so you can concentrate on the road ahead with fewer distractions**.

REMOTE†

The **Remote** app provides upgraded information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or the Apple Watch®, this service includes:

- **Remote Lock/Unlock** - Lock or unlock your doors remotely. Simply press the 'lock' button on the Vehicle Security screen of the Remote smartphone app to single lock the doors and fold in the side mirrors. Press the 'unlock' button to open your vehicle, unfold the side mirrors, turn on the headlights and cause the hazard lights to flash twice to help you locate your vehicle.
- **Remote Climate** - Prepare your Land Rover in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.
- **Beep/Flash** - This feature turns the Land Rover hazard lights on and low beam headlights, and sounds an audible alert to help you locate your vehicle in a crowded parking lot.
- **Journey Tracking** - This opt-in feature can automatically record your trip history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported into a spreadsheet.
- **Vehicle Status Check** - Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

Land Rover Optimized Assistance - If you break down you can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the Remote smartphone app.

SOS Emergency Call - In cases where the airbags deploy, SOS Emergency Call will automatically connect you to the emergency response team who will notify emergency services to your location.

†Remote and Land Rover Optimized Service contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. Mobile network connectivity cannot be guaranteed in all locations. Remote App will need to be downloaded from the Apple/Play Store.

SMARTPHONE PACK*

By screen sharing with the Range Rover Velar InControl infotainment system, the Smartphone Pack helps you stay connected to your smartphone even while in the car.

Android Auto™* was designed with safety in mind. With a simple and intuitive interface, it is designed to minimize distraction so that you can stay focused on the road. Simply connect your Android smartphone via a USB and control compatible apps on the in-car Touchscreen.

Apple CarPlay®* is also designed for increased safety, enabling the use of apps while allowing the driver to concentrate on the road ahead. Connect your Apple smartphone to your car to use compatible apps such as maps, messages and music through the Touchscreen.

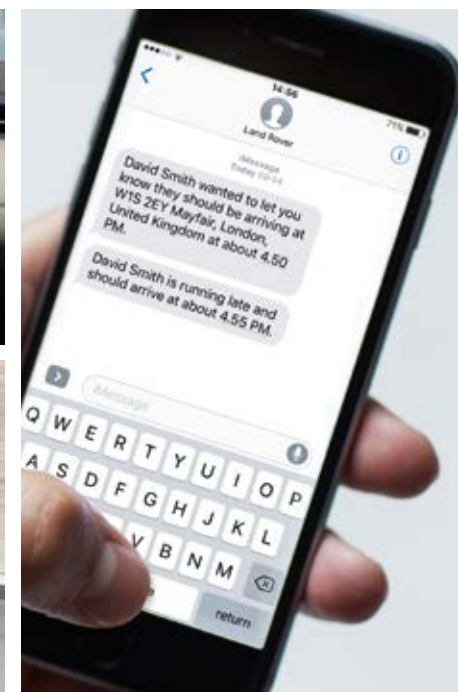

NAVIGATION PRO

The standard Navigation Pro* allows you to save your favorite places, use pinch-to-zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics. Traffic Sign Recognition is also included as standard.

4G Wi-Fi Hotspot and Pro Services**† are designed to enhance your in-car and out-of-car experience, ensuring your passengers enjoy the trip while remaining connected to the world.

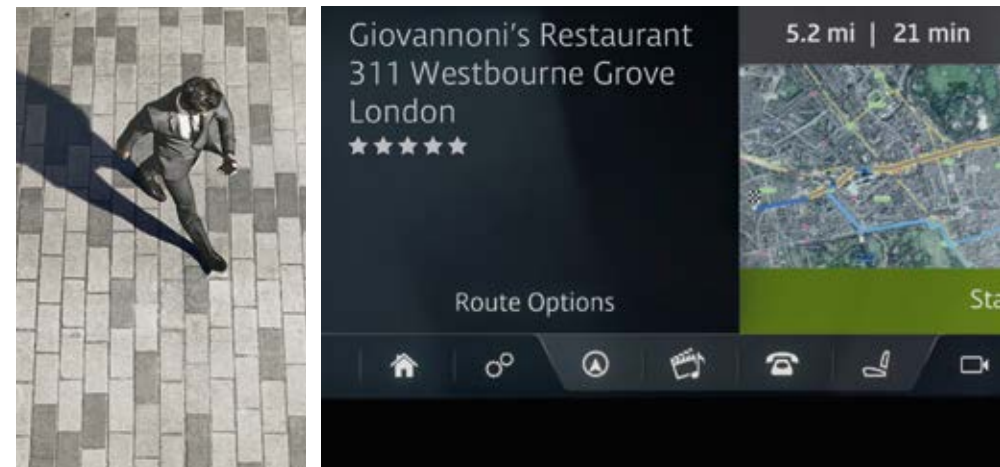

Pro Services* include:

- **Real Time Traffic Information** - Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **Online Search** - Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps will need to be downloaded from the Apple/Play Store. The Apple CarPlay and Android Auto user interfaces are products of Apple or Google and their terms and privacy statements apply. The interfaces require compatible iPhone or Android smartphone and message and data usage rates apply. Apple CarPlay is a registered trademark of Apple Inc. Android and Android Auto are trademarks of Google Inc. **The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions. †Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with suitable data contract. 4G Wi-Fi Hotspot and Pro Services contain subscription services that can be extended after the initial term advised by your Land Rover Retailer.

- **Planning Routes and Door-to-Door Routing** - Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination - a true door-to-door experience which includes public transportation options.
- **Share ETA** - You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- **Fuel Prices** - When you're going to fill up, the Fuel Price service not only finds gas stations along your route, it also enables you to compare fuel prices so you can keep your costs down.
- **Commute Mode** - Allows the system to learn your commutes and automatically advises you of the expected travel time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
- **Online Media** - Allows for the aggregation of numerous content providers and their personalized content - such as Deezer and Tuneln - that gives access to more than 40 million music tracks and four million on-demand programs and podcasts. For the first time, these can be directly streamed from the vehicle without the need for a smartphone - providing a seamless and integrated experience.
- **Parking Service** - As you approach your destination, you can see where parking is available. Simply tap on your preferred parking garage and the navigation system updates to direct you to it.
- **Online Routing** - While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.

Android Auto is a trademark of Google Inc. DRIVER ASSISTANCE

MAKE DRIVING EASIER

From negotiating city traffic or the highway, to providing additional assistance for you and your passengers, you'll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

Search 'Range Rover Velar Driver Assistance' for more details.

STANDARD FEATURES

Emergency Braking can help to prevent foreseeable collisions with other vehicles or pedestrians. If a potential frontal collision is detected, a warning is displayed to alert you to take action. A camera at the front of the vehicle monitors at speeds from 3-50 mph for frontal collisions and 3-37 mph* for pedestrians. If a collision is still anticipated and you have taken no action**, this system will apply the brakes to help reduce the severity of the possible impact[†].

Rear Camera provides improved visibility when reversing. This valuable parking aid also helps when hitching a trailer. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible[†].

Cruise Control with Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, making driving easier and more enjoyable. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired[†].

Driver Condition Monitor is designed to detect if you're starting to feel drowsy and gives you an early warning when you need to take a break[†].

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back[†].

Front and Rear Parking Aid helps make maneuvering even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles[†].

Blind Spot Assist is designed to help prevent foreseeable collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, this system provides precisely calculated steering torque - guiding your vehicle away from the approaching car[†].

Traffic Sign Recognition and Adaptive Speed Limiter keeps you informed and aware on the road, by displaying speed limits and 'no overtaking' signs in the instrument cluster, where they can easily be seen. When activated, Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly.

OPTIONAL FEATURE

360° Surround Camera

360° Surround Camera uses four digital cameras discretely placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various maneuvers from parking by a curb, to getting in and out of tight spaces and intersections[†].

*Always follow local speed limits. **Please note that if any action is taken, even minimal steering, the Emergency Braking/High-speed Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage. [†]These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. ^{††}Park Assist is only programmed to steer you out of a parallel parking space and will not steer the car out of perpendicular parking spaces.

[†]Standard on Range Rover Velar R-Dynamic HSE.

Features and their availability may differ by vehicle specification. Please refer to Specification Guide for details or contact your nearest Land Rover Retailer for more information.

OPTIONAL PACKS

Optional packs are available, featuring a range of technologies to enhance the driving experience. **Park Pack** enables you to park and maneuver more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles, while **Drive Pack** makes every journey more relaxing. The Driver Assistance Pack contains the most comprehensive suite of drive and park technologies.

PARK PACK¹

Park Assist

Park Assist makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed with the brake and accelerator pedals. Graphics and notifications guide you through the maneuvers. Park Assist will also steer you out of a parallel space^{††}, taking the stress out of parking[†].

Rear Traffic Monitor is particularly useful when reversing out of a parking spot. The system warns you of vehicles, pedestrians or other hazards, approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed[†].

360° Parking Aid gives you confidence when maneuvering in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles[†].

DRIVE PACK¹

Adaptive Cruise Control with Stop & Go

Adaptive Cruise Control is designed to keep your vehicle a set distance from the one in front should it slow or stop when you're cruising on the highway or traveling in slow-moving traffic. Should the vehicle in front stop completely, your vehicle is designed to come to a smooth halt. In stop-start traffic, Adaptive Cruise Control will automatically resume following the car in front. The system can be activated from 9.9 mph up to highway speeds[†].

High-speed Emergency Braking detects when a potential frontal collision with another vehicle may occur and displays a forward alert to warn the driver to brake[†]. If the driver doesn't react, the vehicle is designed to deploy the brakes in order to reduce the severity of the possible impact^{**}. High-speed Emergency Braking is ready and active from 6-99 mph^{*}.

DRIVER ASSIST PACK

The optional Driver Assist Pack offers a wide range of driver aids including the features found in both the Park Pack and Drive Pack (see page 29) together with 360° Surround Camera. It also includes Adaptive Cruise Control with Steering Assist, which centers the vehicle in lane and maintains a set gap from vehicles ahead, making driving even easier and more comfortable*.

FRONT CAMERA

FRONT RADAR

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Adaptive Cruise Control with Steering Assist can be activated from 9.9 mph up to highway speeds**. It begins functioning when you press the 'Set' cruise button. A camera and radar then work together to track lanes ahead to maintain a central position for your vehicle, and moderate its speed according to the behavior of the traffic ahead of you. If the vehicle ahead slows, even to a standstill, the feature is designed to automatically slow your vehicle, bringing it to a stop where necessary to help maintain a composed drive in busy traffic situations*.

Adaptive Cruise Control with Steering Assist works with you: as you keep your hands on the wheel anticipating the road ahead, the system assists with steering, braking and acceleration. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated but the Adaptive Cruise Control remains active.

**Always follow local speed limits.

EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover is committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. The development process of the Range Rover Velar has included a full life cycle assessment and has been designed to be recyclable/re-usable and recoverable at the end of the vehicle's life.

Due to its advanced lightweight properties, the body structure of the Range Rover Velar is 82 percent aluminum. Our innovative design incorporates up to 50 percent closed-loop recycled material from the manufacturing process of the body sheet, resulting in significant performance benefits and lower life cycle CO₂ emissions. The closed-loop supply chain reclaims scrap aluminum from the stamping process, segregates it and re-melts it into the same grade quality sheet, thereby reducing the need for primary aluminum production, while maintaining the highest quality.

ADVANCED AERODYNAMICS

The streamlined design of our latest vehicle has been carefully optimized to make Range Rover Velar the most aerodynamic Range Rover ever. A rear spoiler with two integrated slots to direct airflow over the tailgate minimizes rear windshield soiling and provides a reduction in drag. The option of aerodynamically designed and engineered wheels can also help reduce drag by 5 percent.

ENGINE MANUFACTURING CENTER

Jaguar Land Rover's Engine Manufacturing Center, where our engines are developed, features the largest rooftop solar panel installation in the UK. Comprising of no fewer than 22,600 individual panels, which are capable of providing up to 6.2 MW (enough energy to power up to 1,600 homes), the panels generate more than 30 percent of the site's energy, reducing the plant's CO₂ footprint by over 2,400 tons per year.

Search 'Range Rover Velar Sustainability' for full details.

Vehicle shown: Range Rover Velar R-Dynamic HSE in Silicon Silver with optional equipment and optional 22" 9 split-spoke 'Style 9007' wheels with Diamond Turned finish.

DRIVER ASSISTANCE

SAFE AND SECURE

The Range Rover Velar has been engineered to include standard features to assist to you and your passengers.

The elevated Sports Command Driving Position in the Range Rover Velar provides enhanced visibility. You can see more of the road and be more easily seen by others on the road, providing an enhanced feeling of confidence.

Legendary sure-footed All Wheel Drive (AWD) with Intelligent Driveline Dynamic (IDD) capability, as standard, helps you stay firmly planted on the road, in a variety of weather or environment conditions*.

The Range Rover Velar is further enhanced by the latest technologies included as standard:

Dynamic Stability Control (DSC) monitors the dynamic behavior of the Range Rover Velar, intervening to enhance vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer*.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface while braking and prevents wheels from locking - thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to help reduce stopping distance, while still maintaining stability and the vehicle's ability to steer*.

Electronic Traction Control (ETC) enhances traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required*.

Cornering Brake Control (CBC) automatically varies the braking force to each wheel when the vehicle's brakes are applied around a corner and the limit of grip is reached. The system is designed to prevent the vehicle's wheels from locking up and skidding in this event through varying the braking force applied to each wheel*.

Roll Stability Control (RSC) is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover*.

Emergency Brake Assist understands when you apply the brakes quickly but without the necessary force to improve stopping performance. It therefore boosts the brake pressure through the ABS pump to reduce stopping distance.

To help reduce the risk of a foreseeable collision, the Emergency Stop Signal system automatically activates the hazard warning lights during emergency braking*.

Emergency Braking - see page 28 for details.

For easier installation, three LATCH points for baby/child seat restraints are fitted on each side of the rear seats, and a comprehensive system of six airbags** - including driver, passenger, side curtain and thorax airbags - are fitted as standard to protect you.

For information on active driver assistance features please refer to Driver Assistance pages 28-31.

Search 'Range Rover Velar Safety' for full details.

**Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

LED LOW BEAM 474 FEET

BRIGHTER LIGHTS FOR NIGHT-TIME DRIVING

The Range Rover Velar features all-round exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, to make driving at night less tiring.

Driving at night or in poor visibility is made easier by the available Auto High Beam Assist (AHBA), which detects lights ahead and automatically lowers the high beam for oncoming traffic*.

Search 'Range Rover Velar Driver Assistance' for full details.

AIR SUSPENSION LOWERS BY 1.6 INCHES

VERSATILITY

TRULY FLEXIBLE

Range Rover Velar provides optimum levels of space with occupants enjoying the highest levels of comfort storage.

Automatic Access Height, as part of the Electronic Air Suspension¹, allows you to get in and out of the vehicle with greater ease. When you arrive at your chosen destination, Automatic Access Height initially lowers the vehicle suspension height by up to 0.4 inches lower than normal height. Then, as you open the door, it drops to its full access height of 1.6 inches lower than normal, making exit - and entry - more relaxed and elegant. The ride height automatically returns to its normal height as you pull away.

Exceptional 38 inches head clearance and 1.6 inches legroom in the second row enables passengers to stretch out and relax. An optional electric recline function is also available for the rear seats, offering occupants in the second row additional comfort.

Optional Four-zone Climate Control helps make life more comfortable for everyone, by adjusting temperature levels, direction and intensity of airflow.

The 40:20:40 second row seat configuration features a rear-seat pass-through for storage of skis, an armrest and for the greatest possible storage space, the entire row can be folded. Optional rear seat remote release levers are located in the luggage compartment and, when released, mechanically fold all the seats down. Even when you're heading off on an extended road trip, there is plenty of space. With a maximum cargo space of 23.7 cubic feet, you can carry several suitcases or other bulky items with ease.

¹Not available on P250 engines.

A tow hitch receiver with a maximum tow capacity of 5,511 lbs² is available as an option, including all electronics and appropriate attachments for your trailer, allowing you to use items from the Land Rover Gear range more easily. Everything has been designed and engineered for ease of use and adaptability, to fit perfectly with your lifestyle. A Tow Pack is also available which includes the tow hitch receiver, fixed rear recovery eye, Advanced Tow Assist and Surround Camera*.

Search 'Range Rover Velar Versatility' for full details.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

²Maximum tow capacity refers to the V6 engine. Tow capacity varies by engine choice.
Maximum tow capacity assumes a braked trailer.

NEW RANGE ROVER VELAR SVAUTOBIOGRAPHY DYNAMIC EDITION

SPECIAL VEHICLE OPERATIONS – THE CONCEPT OF SVAUTOBIOGRAPHY DYNAMIC EDITION

Designed and engineered by Special Vehicle Operations (SVO) – Land Rover’s Center of Excellence for bespoke commissions, luxury editions and performance models – the new Range Rover Velar SVAutobiography builds on the World Car Design of the Year award 2018 achievement, dramatically adding to the Velar story. Born of reductive design principles the Velar signature formality and dynamic stance have been heightened. Design, refinement and performance have all been optimized to help deliver the next generation of Range Rover.

EXTERIOR

Range Rover Velar SVAutobiography Dynamic Edition takes the Land Rover bloodline to striking new territories. New features include a unique front grille and surround, a front bumper with larger openings to aid engine cooling, and rear bumpers. Such design details as quad tailpipes and forged wheels also add greatly to the vehicle's dramatic looks. These elements are further complemented by a unique color - Byron Blue in Satin finish.

Ultra-soft perforated Windsor leather seats feature a unique Diamond Quilted pattern.

The dials feature Knurled edging and are a delight to the touch.

Range Rover Velar SVAutobiography Dynamic Edition steering wheel features aluminum paddles.

Shadow Aluminum Finisher door panels echo the finishers.

INTERIOR

From 20-way quilted perforated Windsor leather front seats with heated, cooled, memory and massage functions, to details such as the tactility of the Knurled Aluminum rotary shifter, the vehicle's formal yet contemporary interior has been formed with the driver in mind. Added to which, the vehicle provides a calm sanctuary for all your passengers.

PERFORMANCE

0-60mph in 4.3 seconds*. A high-performance braking system. Superb aerodynamics. All coupled with Land Rover's renowned capability. Range Rover Velar SVAutobiography Dynamic Edition delivers the most effortless, responsive drive. One that can take you and your passengers wherever you want, in the comfort and style you expect.

*Always follow local speed limits.

RANGE ROVER VELAR SVAUTOBIOGRAPHY DYNAMIC EDITION

There's a portfolio of features distinct to Range Rover Velar SVAutobiography Dynamic Edition. These include a 5.0 liter V8 Supercharged Gas engine, Diamond Quilted perforated Windsor leather seats, forged alloy wheels and new exterior paint colors such as Byron Blue in Satin finish. Please refer to the accompanying Technical Specification for full details.

UNIQUE FEATURES

DYNAMICS

- Active Sports Exhaust
- Sports suspension
- SV optimized Dynamic Mode

EXTERIOR FEATURES

- SVAutobiography badge

SELECT YOUR LAND ROVER GEAR – ACCESSORIES

A range of stylish, tough and practical accessories is available, bringing you the opportunity to personalize your Range Rover Velar even further. These accessories can be purchased through your Land Rover Retailer and added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

For our full range of accessories please visit landroverusa.com/gear to view the online accessories catalog.

TOURING

Cross Bars (optional Roof Rails required)

Elegantly designed Roof Rails (which are an optional fit only) facilitate easy fitment of Cross Bars for roof carrying. Pre-set positioning points ensure Cross Bars are fixed in an optimum position for weight distribution and dynamics. Maximum payload is 163 lbs². Durable Bright finish aluminum Cross Bars, with T-track design which utilize the full length of the bars, provide space to mount multiple accessories. Aerodynamic profile minimizes drag and wind noise. The incremental height when fitted is 3.6 inches.

Large Sports Roof Box¹

Power-click quick mounting system with integrated torque indicator for easy and secure fixation with a single-handed grip. Opens from both sides with handles on the lid and inside the box, for convenient fitting, loading and unloading. Integrated base mat for extra secure loading. Load capacity eight skis/five-six snowboards; max length of skis 80 inches. Volume 113 gallons. Maximum payload 163 lbs².

Center Armrest Cooler/Warmer Box

Food and drinks chiller and warmer that acts as a rear center armrest. With a leather-covered top, it is held in place by the center seat belt and powered from the rear auxiliary socket. Ideal for long trips with the family.

iPhone® Connect and Charge Dock

The iPhone Connect and Charge Dock has been designed to allow visibility of the phone while charging, utilizing the cupholder space in the center console. When connected, the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The 'cut-out' design of the holder is such that the home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use.

Wireless Phone Charging Cupholder³

The Wireless Phone Charging Cupholder has been designed to allow visibility of the phone while charging, utilizing the cupholder space in the center console. The holder will accommodate phones up to 2.8 inches wide securely in place. The charger displays an LED light to indicate when charging, and turns off when complete.

Click and Go Accessory System

The Click and Go range is a multi-purpose seat-back system for second row passengers. The versatile Click and Go base fastens between the headrest mountings and further attachments can be added to hold tablets, bags and shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

Cross Bars

Click and Go Accessory System

¹Roof Rails and Cross Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle, and could have a detrimental effect on the navigation and satellite radio system, if fitted.

²Maximum payload equals the load capacity of the roof mounted accessory. ³Wiring harness required: VPLYV0125.

iPhone® is a trademark of Apple Inc., registered in the US.

DESIGN

Deployable side steps

These smart, practical steps make it easier to get in and out of the vehicle. Neatly stored under the sills, the side steps automatically deploy as soon as the door is opened, or when activated by the key fob. They store automatically when the door is closed. The side steps are sensitive to obstructions and will not deploy in off-road or low range settings. Automatic mode can be overridden to allow access to the roof when the doors are closed. The Deployable side steps are compatible with Front Mudflaps and feature a Stainless Steel finish with laser etched Range Rover Velar branding.

Rear Spoiler

Sleek and dynamic Carbon Fiber Rear Spoiler for Range Rover Velar.

Carbon Fiber Mirror Covers

Stunning high grade Carbon Fiber Mirror Covers with a High Gloss finish provide a performance-inspired premium styling update.

Carbon Fiber side vents

High grade Carbon Fiber side power vents with a High Gloss finish provide a performance-inspired styling upgrade.

Personalized illuminated metal front treadplates

Personalized illuminated treadplates allow you to choose a personalized message using an approved set of fonts/typefaces which will be highlighted in white illumination when the front doors are open.

Illuminated Cargo Space Scuff Plate¹

Manufactured from stainless steel with a Bright finish, the rear cargo space treadplate finisher provides protection for the cargo space trim when loading or unloading and provides a premium finish to the cargo space with subtle illumination.

Gearshift paddles

Complete the look and feel of your steering wheel with premium Gearshift paddles. Gearshift paddles are machine polished, anodized and hand brushed to provide exceptional wear resistance with a premium Red or Aluminum finish.

Deployable side steps

SPORTING

Aqua Sports Carrier²

Carries one canoe or kayak. Includes lockable multi-purpose holder to carry oars or paddles. Tilts to facilitate easy loading/unloading. Features lockable straps and rubber supports to maintain optimum weight distribution while protecting the equipment and vehicle from scratches or scuffs. Maximum load capacity 99 lbs³.

Ski/Snowboard Holder²

Carries four pairs of skis or two snowboards, and incorporates slider rails for easy loading and is also lockable for security. Maximum payload 79 lbs³.

Luggage Carrier²

Flexible rack system to facilitate roof carrying. Maximum payload 134 lbs³.

Wheel Mounted Bike Carrier²

Lockable Bike Carrier designed for holding a single bike up to 44 lbs.

Kayak Carrier²

Carries two kayaks or canoes. Also suitable for transporting crafts such as surfboards or small boats. Includes lockable multi-purpose holder to carry paddles. Tilts to facilitate easy loading/unloading. Maximum load capacity 45 lbs.

Luggage Carrier

OUTDOOR

Protective Second Row Seat Cover

Protects seats from wet, dirty clothes as well as general wear and tear. Simple to fit and easily wipeable. Includes headrest and armrest covers.

Full Height Luggage Partition¹

Designed to prevent luggage from entering the passenger compartment. Manufactured in Black nylon coated steel, this full height luggage partition is easy to remove when not required. Complies with ECE-17 regulation.

Cargo Space Partition Net¹

Designed to prevent luggage from entering the passenger compartment. The design of the Cargo Space Partition Net has been optimized to second row seating featuring tilt functionality.

Front and Rear Mudflaps

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Designed to complement vehicle exterior styling.

Rubber mat set - Ebony

Rubber footwell mats for front and second row occupants help provide protection from general dirt. Branded and with bright accent Range Rover ingot and durable metal corner piece to the external edge.

Cargo Space rubber mat

Land Rover branded waterproof rubber mat, with retaining lip, helps to protect the rear cargo space carpet from general dirt. This waterproof mat extension covers the back of the rear seats when they are folded down.

Cargo Space Semi-rigid Liner Tray

Semi-rigid waterproof Cargo Space Liner Tray with a raised lip on three sides to protect cargo space floor and side wall carpets from dirt or wet equipment.

Full Height Luggage Divider

LIFESTYLE

Luxury Carpet Mats - Ebony

Luxurious, tailored, deep pile 23 oz/yd² carpet mat set, with waterproof backing, provides a well appointed finishing touch to the interior.

Cargo Space Retention Kit

The Cargo Space Retention Kit consists of a pack of attachments that fix into the cargo space rails via a quick lock/quick release system to help provide a comprehensive and flexible solution for retaining luggage and other items within the cargo space. The attachment pack includes a retractable strap with inertia reel and telescopic rod. Requires cargo space rails for fitment.

Luxury Cargo Space Carpet Mat

Luxurious, tailored, deep pile 23 oz/yd² cargo space carpet mat, with waterproof backing, provides a well appointed finishing touch to the interior.

Pet Cargo Space Protection Pack

Designed to provide protection and easy cleaning of the cargo space from wet and muddy paws. Combines the Quilted Cargo Space Liner, Full Height Luggage Partition and Spill Resistant Pet Bowl.

Pet Transportation Pack

Convenient option to provide a comfortable environment for transporting pets, which can be fitted or removed quickly as and when required. Combines the Foldable Pet Carrier, Spill Resistant Pet Bowl and Cargo Space rubber mat.

Pet Care and Access Pack

Taking the effort out of transporting pets, this option ensures everything required is to hand to transport pets in comfort. Combines the Full Height Luggage Partition, Quilted Cargo Space Liner, Pet Access Ramp and Portable Rinse system.

Pet Transportation Pack

THE WORLD OF LAND ROVER

Your Land Rover has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can't reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we've put together a range of experiences, publications and the Land Rover Lifestyle Collection. There's a world to explore. Get out there and enjoy it.

EXPERIENCE DRIVES

Professional driver on closed course. Do not attempt.

Bring out your adventurous side and experience Land Rover's legendary capability for yourself. Under the expert guidance of a world-class instructor, head to the most exciting and challenging off-road terrains and take the vehicle to its limits.

YOUR PEACE OF MIND

CUSTOMER SERVICE

When you bring your Land Rover vehicle to us, we use proprietary Land Rover diagnostic equipment to assess all your vehicle's mechanical and electronic systems. Our factory-trained Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and Gear accessories. A choice of service plans are available which, together with Roadside Assistance, ensures complete peace of mind.

For further details contact your local Land Rover Retailer or search 'Land Rover Ownership'.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Assistance provides assistance in motoring emergencies, from immobilization due to breakdown to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Retailer or search 'Land Rover Roadside Assistance'.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.

For further details contact your local Land Rover Retailer or search 'Land Rover Finance'.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service and low maintenance and repair costs.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

Search 'Land Rover Fleet and Business' for full details.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories, and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications or availability, nor does it constitute an offer for the sale of any particular vehicle, part or accessory. Distributors and retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

COLORS Images are provided for illustrative purposes only. Colors reproduced on-screen may vary compared to actual finish. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

DIMENSIONS AND CAPABILITIES

Standard Ride Height[†]

With roof rails 65.3 inches (Air) 66 inches (Coil)
 With roof antenna 66 inches (Air) 66.3 inches (Coil)
 With panoramic roof open 67 inches (Air) 67.3 inches (Coil)
 Access height air suspension setting will reduce each of the above by 1.6 inches

Headroom

Maximum front/rear headroom with standard roof 39 inches/38.8 inches
 Maximum front/rear headroom with panoramic roof 38.1 inches/38 inches

Legroom

Maximum front legroom 40.2 inches
 Maximum rear legroom 37.1 inches[†]

Cargo space Capacity

Height 41.1 inches, Width 49 inches
 Cargo space width between arches 41.3 inches
 Maximum Cargo space volume behind first row
 Dry 44.1 cu.ft, Wet 60.2 cu.ft*
 Maximum Cargo space volume behind second row
 Dry 18.1 cu.ft, Wet 29.4 cu.ft*

Obstacle Clearance

Off-road height 9.76 inches^{††}
 Standard ride height 8.3 inches[†]

Turning Circle

Kerb-to-kerb 38 ft.
 Wall-to-wall 39 ft.[†]
 Turns lock-to-lock 2.52

Wading Depth

Maximum wading depth 1322 inches/1433 inches[†]

	A	B	C
Ride Height	Approach Angle [†]	Ramp Angle [†]	Departure Angle [†]
Off-road Air (Coil)	27.5° (25.1°)	24.9° (21.0°)	30.2° (26.8°)
Standard Air (Coil)	25.93° (25.3°)	21.0° (20.4°)	27.3° (27.3°)

Wheelbase 113.1 inches

*Dry: Volume as measured with VDA-compliant solid blocks (7.8 inches x 1.9 inches x 3.9 inches). Wet: Volume as measured by simulating the loadspace filled with liquid.
[†]Figures shown may differ for 5.0L V8 Supercharged 550PS. ^{††}Electronic air suspension only.
